I materiali

I materiali utilizzati per la realizzazione dei prodotti Nova-Ferr srl sono:

- Acciaio:** per i reparti di stampaggio lamiera
- Trafilati:** per il reparto torneria
- Laminati:** per il reparto a controllo robotizzato ruote
- Filo acciaio:** per il reparto stampaggio a freddo

I materiali sono esclusivamente materiali certificati, reperiti dalle più importanti acciaierie Europee. Inoltre tutti i materiali metallici, finiti, semilavorati e grezzi, subiscono nei vari percorsi produttivi: verifiche strutturali e verifiche tramite rilievo delle caratteristiche meccaniche e tecnologiche, garantendo una sempre e più valida strategia di orientamento nelle scelte dei materiali e nella ricerca delle performance.

Per garantire la giusta resistenza alle severe condizioni climatiche cui sono sottoposti i nostri prodotti ed ai sempre crescenti requisiti estetici, tutti gli articoli prodotti dalla NOVA-FERR srl vengono sottoposti a trattamenti superficiali come la **verniciatura e la zincatura**.

Le certificazioni

L'attenzione per la qualità del prodotto e del servizio rivolto alla clientela è stata perseguita con l'adozione di un sistema di qualità conforme alla UNI EN ISO 9001:2015.

Tipologia ruote

ZINCATURA

Tutte le nostre ruote subiscono una protezione superficiale da 7µ a 11µ classe II a garanzia dei requisiti richiesti.

All our wheels are protected from 7µ to 11µ class II to guarantee the demanded requirements.

CATAFORESI

La Cataforesi è caratterizzata dal deposito uniforme di una resina epossidica che assicura a lungo una straordinaria protezione nei confronti di tutti gli agenti atmosferici e di qualunque altro tipo di attacco.

The cataphoresis is characterized by the even deposit of an epoxy resin that guarantees a long and extraordinary protection towards every atmospheric agent and to any other type of attack.

Ruota con supporto aperto in acciaio zincato

Art. 130 - 131 - 132 - 137 - 2 cuscinetti

 Galvanized steel wheel with open bracket
  Galet en acier zingué avec support ouvert
  Rueda en acero cincado con soporte abierto
 Schiebetore Rolle aus verzinktem Stahl mit geöffneter Stützplatte und zwei Kugellager

Materiale: Acciaio Zincato / Cataforesi / Nylon / Inox

2 Cuscinetti schermati 2 Ball bearings | 2 Roulements | 2 Rodamientos

N.B. Per ordinare la versione Cataforesi aggiungere la lettera "C" alla fine del codice Es: 111/5/17/C

Le versioni nylon sono indicate con la lettera "N" finale.

To order the Cataphoresis model, add "C" at the end of the code. Ex.: 110/5/17/C

The nylon versions are indicated with the final letter "N".

- Leichter Türkantriegel zum Anschrauben

Dispositivo di sicurezza anticaduta

Art. 253

 *Anti-fall safety device*

 *Dispositif de sûreté anti-chute*

 *Dispositivo de seguridad anti-caída para portones*

 *Stützeinrichtung*

Materiale: Acciaio zincato

Art.	Peso(g)	Conf.
253	430	8

Dispositivo REGOLABILE a seconda della distanza tra piantone ed anta.
Per una corretta applicazione è necessario che la catena di congiunzione sia in tensione.
Si consiglia l'applicazione su parte superiore e su parte inferiore (Come in foto)

Device ADJUSTABLE according to the distance between the pillar and the leaf
For correct application the connecting chain must be under tension.
It is recommended to apply on top and bottom part (as in the picture).

Il dispositivo anticaduta Art. 253 è indispensabile come strumento di sicurezza contro eventuali incidenti.

The anti-fall safety device Art. 253 it's essential as a safety tool against potential incidents.

Si ricorda che la normativa EN13241 impone l'utilizzo di un sistema anticaduta
Please note that the EN13241 standard requires the use of a fall arrest system

IMPORTANTE! - ATTENTION!

Facciamo presente che a catalogo è possibile trovare anche la serie completa di **Cerniere per cancelli a battente**.
Questi articoli sono compresi tra i prodotti della sezione **"CERNIERE PER USI VARI"** si trovano da pag.124 a pag.129 del presente catalogo e sono gli articoli compresi tra l'Art.136 fino e l'Art.193.

Please note that the catalogue also includes the complete series of **Hinges for swing gates**.
These articles are included in the products in the **"HINGES FOR VARIOUS USES"** section on pages 124 to 129 of this catalogue and are the articles included between Art. 136 up to Art. 193.

N.B.: I pesi indicati sono da considerarsi con guida inclusa.

Il Kit Cantilever adatto si determina in tabella partendo da peso e luce.

Weights shown are with guide included.

The suitable Cantilever Kit is determined from the table based on weight and span.

Nel caso in cui le misure di P e L non coincidano con quelle espresse in tabella, utilizzare le formule di seguito o il configuratore presente sul nostro sito www.novaferr.com

If the measurements of P and L do not coincide with those expressed in the table, use the formulas below or the configurator on our website www.novaferr.com

CONFIGURATORE PER IL CALCOLO DI UN CANCELLO AUTOPORTANTE

Dati forniti dal cliente

Guida Zincata

Peso * Kg

Luce mm

* Va indicato il peso del cancello senza guida

CALCOLA

Serie

Articolo 1
Articolo 2
Articolo 3
Articolo 4
Articolo 5
Articolo 6

Peso della guida selezionata

Guida selezionata

Riepilogo sul peso dopo il calcolo:

Dati utili alla progettazione

A Distanza centro carrello a filo pilastro centro

I Interasse tra i due carrelli (min)

C Ingombro battente d'arresto

D Distanza filo basamento centro carrello

E Larghezza del basamento in cemento armato

F Lunghezza del basamento in cemento armato

H Altezza del basamento in cemento armato

L Luce netta di passaggi

M Lunghezza totale del cancello e guida

N Spazio utile necessario per funzionamento cancello

F1 Forza di reazione alla compressione (forza massima a cui è sottoposto il portone)

F2 Forza di reazione alla trazione (reazione per equilibrare la parte a sbalzo)

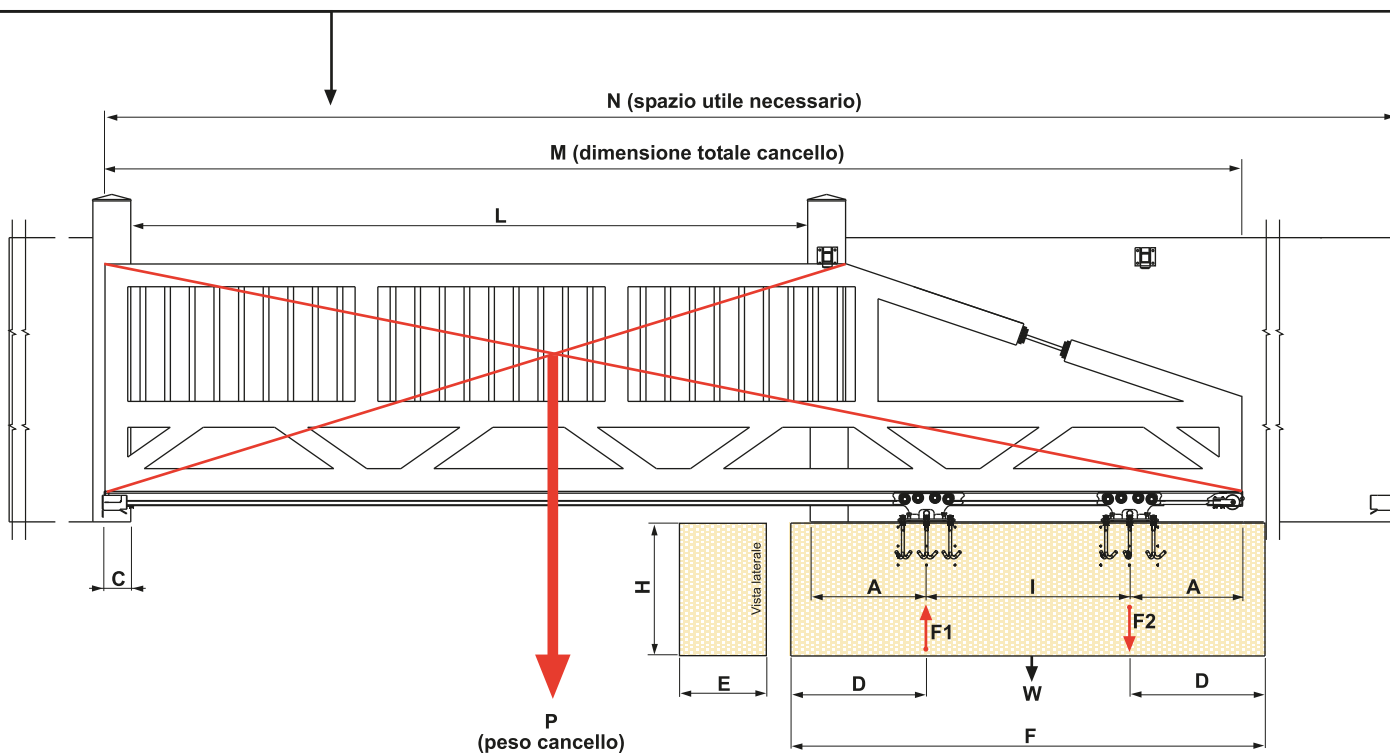

W Peso basamento in cemento armato

Applicazione carrello autoportante

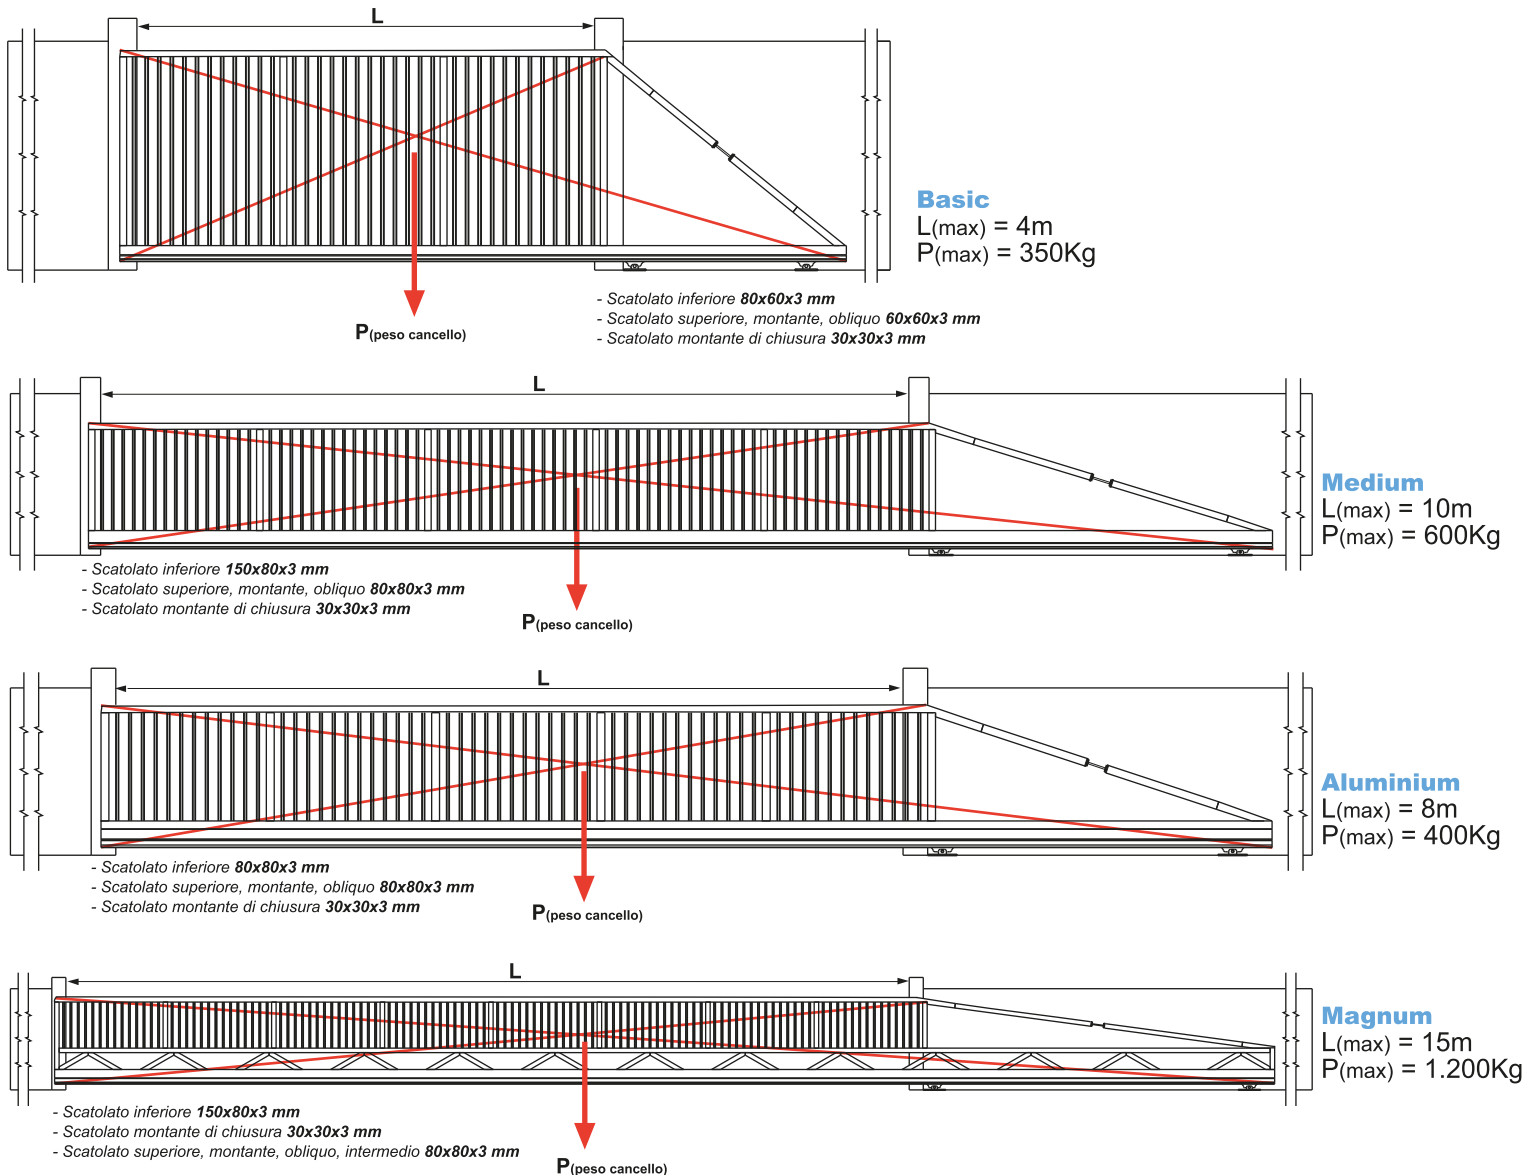

Per portate oltre 800Kg è consigliata la costruzione del cancello come in figura. Data la sua particolare struttura a "traliccio" si nota una maggiore resistenza alla flessione.

For load capacities of more than 800 kg, the construction of the gate as shown in the figure is recommended. Due to its special 'trellis' construction, a higher bending resistance is noticeable.

Materiali da utilizzare per la costruzione del cancello

Analisi sollecitazione - integrità strutturale

Oltre ai test fisici effettuati, come convalida dell'integrità strutturale è stata utilizzata l'applicazione "Analisi sollecitazione di Autodesk Inventor Professional"

In addition to the physical tests performed, the "Stress Analysis of Autodesk Inventor Professional" application was used to validate structural integrity.

Autodesk
ANSYS

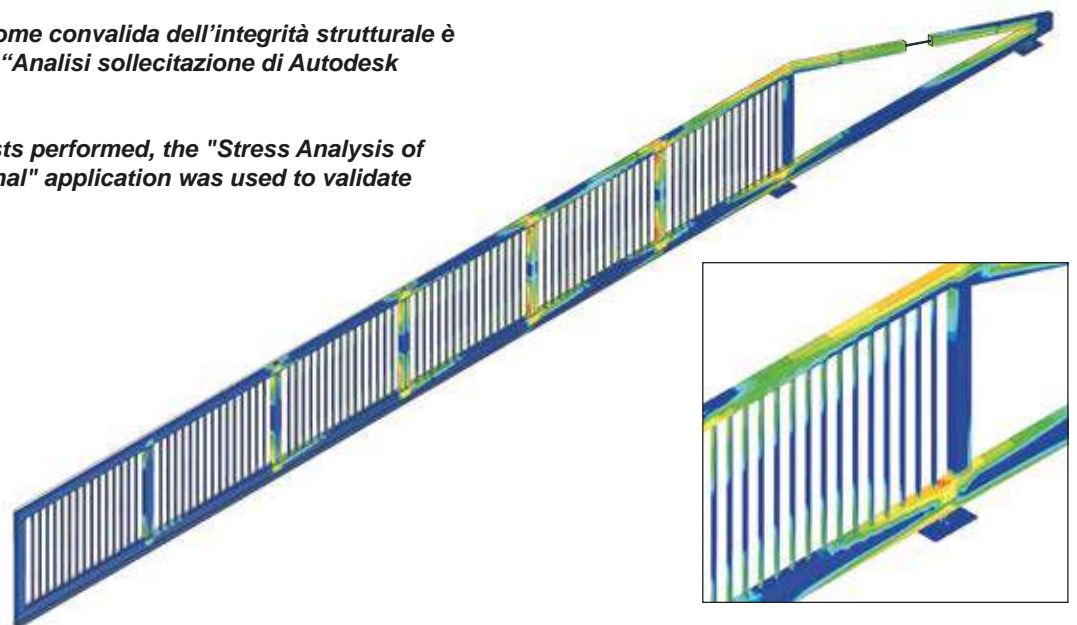

Grafico Luce netta/interasse carrelli

L (m) (Luce netta di passaggio)

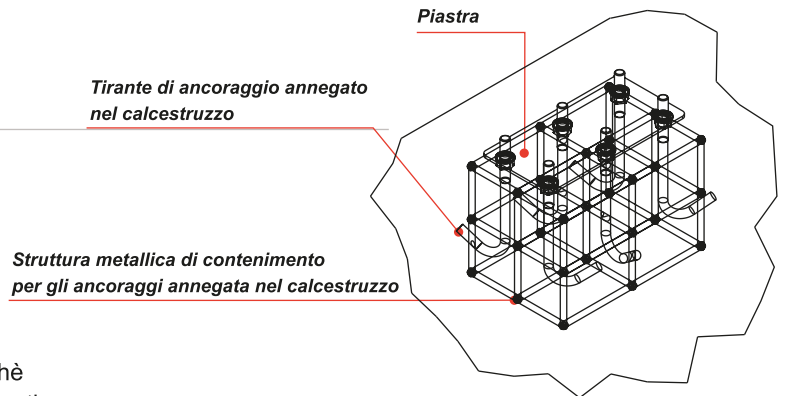

Considerazioni tecniche

La scelta dell'interasse è puramente strategica, Dato lo schema rappresentativo (Vedi Pag. 62):

$$F1 = F2 + P$$

$$F2 = \frac{P \times (L/2 + A)}{I}$$

- Se $I \rightarrow 0$ ossia se i carrelli sono molto vicini allora $F2 \rightarrow \infty$ e $F1 \rightarrow \infty$
In questo caso bisognerebbe avere $F1$ elevatissima affinché il sistema autoportante possa funzionare e i due carrelli sopportino la portata a sbalzo.
- Se $I \rightarrow \infty$ ossia se i carrelli sono molto distanti allora $F2 \rightarrow 0$ e $F1 \rightarrow P$
In questo caso bisognerebbe avere $F1$ pari al peso del cancello affinché il sistema autoportante possa funzionare e i due carrelli sopportino la portata a sbalzo.
- Consigliabile:
 $I_{(min)} = \frac{L}{3}$ a comunque $\frac{L}{3} < I < L$

Per un corretto dimensionamento del basamento è opportuno che W sia $> 2,5 F2$, questo per contrastare il peso del cancello a sbalzo

 sul canale youtube di NovaFerr.

You Tube

www.youtube.com/user/novaferr

HANDY è l'accessorio creato da NovaFerr che consente l'apertura di porte e portoncini senza dover toccare con le mani le maniglie o i maniglioni, riducendo la possibilità di trasmissione di virus e batteri.

Fornito in kit, facile da installare e completamente regolabile si adatta facilmente a tutte le tipologie di maniglie di uso civile, commerciale ed industriale, sia su maniglie posizionate in orizzontale che in verticale.

Disponibile in due colorazioni che si abbinano alle differenti tipologie di maniglie o maniglioni garantendo la visibilità del dispositivo.

- Chariot final en acier zingué cimenté à 4 roulements avec paumelle à 1 aile
- Roldana lateral en acero cincado cementado con 4 rodamientos con bisagra a 1 ala
- Seitlicher 4-Kugellager Rollapparat mit 1-Lasche-Torband, aus zementiertem und verzinktem Stahl

Art. 93

Rullo guida in ottone con perno in acciaio zincato

Materiale: Acciaio zincato / Oliva Ottone

🇬🇧 Brass roller with galvanized pin

🇫🇷 Rouleau de guide en laiton avec pivot en acier zingué

🇪🇸 Rodillo en latón con pernio de acero cincado

🇩🇪 Bodenführungsrolle mit Platte aus verzinktem Stahl mit Rolle auf Messing

Art.	A	Peso(g)	Conf.
93/25	25	170	35
93/30	30	180	35

Art. 94

Deviatore con rullo in acciaio zincato e perno

Materiale: Acciaio Zincato

🇬🇧 Galvanized steel deflector clamp with roller

🇫🇷 Appareil de deviation en acier zingué avec rouleau

🇪🇸 Desviador en acero cincado

🇩🇪 Führungsrolle aus verzinktem Stahl mit Gewinde

Art.	Peso(g)	Conf.
94	230	35

Art. 91

Guida inferiore rullo in ottone

Materiale: Acciaio zincato / Oliva Ottone

🇬🇧 Bottom guide brass roller

🇫🇷 Guide du bas - rouleau en laiton

🇪🇸 Guia inferior con rodillo de latón

🇩🇪 Untere Führungsplatte mit Führungsrolle aus Messing

Apparecchiatura di prova in fase di apertura

NF Testing conformità UNI EN 1335:2004

Oltre ai test fisici effettuati, come convalida dell'integrità strutturale è stata utilizzata l'applicazione
Analisi sollecitazione di Autodesk Inventor Professional.

Cerniera ambidestra a scomparsa

Art. 715

-  *Ambidextrous hidden hinge*
-  *Charnière ambidextre cachée*
-  *Bisagra ambidestra oculta*
-  *Beidhändig verstecktes Scharnier*

Patented

Materiale: Acciaio zincato

Art.	Peso(g)	Conf.
Art.715	842	8

Cerniera ambidestra a scomparsa ala dritta

Art. 715/D

-  *Straight wing concealed ambidextrous hinge*
-  *Charnière ambidextre cachée à aile droite*
-  *Bisagra ambidestra oculta con ala recta*
-  *Gerader Flügel, verdecktes, beidhändiges Scharnier*

Patented

Materiale: Acciaio zincato

Art.	Peso(g)	Conf.
Art.715/D	842	8

Caratteristiche generali

Registrazione in profondità

Patented

Grazie al dispositivo brevettato riusciamo a registrare fino a 4mm l'aletta fissata al montante

Registrazione in altezza

Lavorazioni su alette

Secondo le esigenze di ogni cliente, le cerniere vengono realizzate a disegno con la possibilità di effettuare qualsiasi lavorazione sulle alette in lamiera

Le alette in lamiera possono essere piegate a disegno in base ai vari telai utilizzati

Applicazione ambidestra

Girare l'ala in base alle esigenze, regolare il grano e fissarlo con grano più piccolo.

Art. 714

Cerniera ambidestra con doppia registrazione per porte blindate

Patented

Adjustable "mushroom" hinge for armored doors

Charnière "champignon" réglable pour portes blindées

Bisagra ajustable de "hongo" para puertas blindadas

Verstellbares "Pilz" -Scharnier für gepanzerte Türen

Materiale: Acciaio zincato + alluminio

Art.	A	Peso(g)	Conf.
714/1	25,5	539	8
714/2	27,5	544	8
714/3	29,5	551	8

Art. 178

Cerniera destra e sinistra con doppia registrazione per porte blindate

Patented

Hinge with double adjustment, balls pin in cemented steel, rubber spacer

Charnière à double réglage, avec pivot à sphères en acier cimenté, espaceur en caoutchouc

Charnela doble regulacion, con pernio a bolas de acero cementado, distanciador de goma

Rollenband mit Doppel Verstellung, Kugelstift und Gummiabstandhalter

Materiale: Acciaio zincato + alluminio

Art. 217

Cerniera parigina con perno in acciaio o in ottone, sabbiata

CON CUSCINETTO

Materiale: Acciaio grezzo

Drop profile parisienne hinge with steel, brass pin, with thrust bearing, sandblasted

Charnière parisienne profil en goutte avec pivot acier ou laiton, avec palier de butée, sablé

Bisagra à profil de gota con pernio interior en acero o latón, con rodamiento, chorreado

Pariser Anschweißband mit Kugellager. Aus Stift aus Stahl, Edelstahl oder Messing, sandgestrahlt

CON RONDELLA

Materiale: Acciaio grezzo

Drop profile parisienne hinge with steel, or brass pin, with thrust washer sandblasted

Charnière parisienne profil en goutte avec pivot acier ou laiton, avec rondelle de butée, sablé

Bisagra a perfil de gota con pernio interior en acero o latón, con arandela, chorreado

Pariser Anschweißband mit Scheibe. Aus Stift aus Stahl, Edelstahl oder Messing, sandgestrahlt

NUOVO SISTEMA DI CARDINE REGOLABILE A SGANCIO RAPIDO NEW QUICK RELEASE ADJUSTABLE HINGE SYSTEM

NF Rapido

Patented

1|

2|

3|

L'unico sul mercato con
lo speciale dispositivo
di regolazione

- 1| Cardine superiore con vite di bloccaggio
- 2| Cardine inferiore con vite di bloccaggio
- 3| Dispositivo di regolazione piastre|boccola|rondella

CARATTERISTICHE TECNICHE

Perno Ø 16 mm in acciaio

Piastrina di riscontro INOX

Zincatura nera ad alta resistenza alla corrosione

Montaggio senza saldatura

Blocco di sicurezza

Dispositivo di regolazione dell'anta

Rondella inferiore antifrizione

Per profili 40x30mm
Sp.2mm

Profilo zincato di 6mt per telaio porta pannello

**Brevettato
Patented**

Stampo

Galvanized profile of 6mt. for panel frame

Profil zingué de 6mt. pour cadre de panneaux

Perfil cincado de 6mt. para marco de paneles

Verzinktes Stahlprofil 6 mt lang für Paneele

NOVAGUIDE®

Materiale: Acciaio zincato

Art.	Peso(g/m)	Conf.
3186	3.560	40
3186/ST	Stampo per foratura	40 Kg 1

Sistema di fissaggio e tipologie di pannelli

Grazie al profilo porta pannello brevettato da Nova-Ferr, il fissaggio del pannello e la regolazione degli accessori risultano semplici e sicuri

Profilo porta pannello

Bloccaggio facile e sicuro

Regolazione

Infilare

Viene inserito un pannello da 40mm
Il pannello deve essere scantonato negli angoli
il pannello deve essere tagliato di misura per far corpo unico con la struttura

Schiumare

La struttura viene avvolta da due fogli di lamiera
All'interno tramite apposite schiumatrici viene inniettato il poliuretano per la costruzione dell'anta

Incollare

La struttura viene avvolta da due fogli di lamiera
All'interno viene inserito un foglio di polistirolo
e poi il tutto posto sotto una pressa nei tempi idonei a far agire il collante

Manuale tecnico portoni sistema NOVAGUIDE®

NOVAGUIDE®

- IT** Lo strumento fondamentale per la costruzione dei portoni a libro e dei portoni scorrevoli è il MANUALE TECNICO della Nova-Ferr srl. Le schede tecniche racchiuse nel manuale danno le informazioni necessarie per il corretto assemblaggio degli accessori e taglio dei profili appartenenti al nostro sistema NOVAGUIDE®.
Richiedi il manuale NOVAGUIDE® scrivendo al nostro ufficio tecnico ufftecnico@novaferr.com
- UK** The most important tool for the construction of foldable doors and sliding doors is the Nova-Ferr srl TECHNICAL GUIDE. The data sheets enclosed in the manual give the necessary information for a correct assembling of the accessories and a right cutting of the profiles needed for our NOVAGUIDE® system.
Request the NOVAGUIDE® manual by writing to our technical office ufftecnico@novaferr.com
- ES** El medio fundamental para la construcción de las puertas plegables y de las puertas correderas es el MANUAL TÉCNICO de Nova-Ferr srl. Las fichas técnicas incluidas en el manual dan la información necesaria para el correcto montaje de los accesorios y el corte de los perfiles utilizados en nuestro sistema NOVAGUIDE®.
Solicite el manual NOVAGUIDE® escribiendo a nuestro departamento técnico ufftecnico@novaferr.com
- FR** L'outil le plus important pour la construction des portes pliantes et des portes coulissantes est le MANUEL TECHNIQUE de Nova-Ferr srl. Les fiches techniques contenues dans le manuel donnent les informations nécessaires pour l'assemblage correct des accessoires et pour la coupe des profils appartenant à notre système NOVAGUIDE®.
Demandez le manuel NOVAGUIDE® en écrivant à notre bureau technique ufftecnico@novaferr.com
- DE** Das grundlegende Hilfsmittel für den Bau von Faltdore sowie Schiebetore ist das TECHNISCHE HANDBUCH von Nova-Ferr srl. Die technischen Datenblätter, die im Handbuch enthalten sind, geben die notwendigen Informationen für eine korrekte Montage des Zubehörs und der Profile unseres NOVAGUIDE®-Systems.
Fordern Sie bitte das NOVAGUIDE® Handbuch an, indem Sie an unsere technische Abteilung ufftecnico@novaferr.com schreiben.
- RU** Самым важным инструментом для конструкции складных и раздвижных дверей является ТЕХНИЧЕСКОЕ РУКОВОДСТВО Nova-Ferr srl. Прилагаемые к руководству спецификации дают необходимую информацию для правильной сборки аксессуаров и правильной нарезки профилей, необходимых для нашей системы NOVAGUIDE®.
Вы можете запросить руководство NOVAGUIDE®, написав в наш технический офис ufftecnico@novaferr.com

Certificazione sistema NOVAGUIDE®

- IT** È possibile ottenere la certificazione CE in cascading per i portoni realizzati con il nostro sistema NOVAGUIDE®. Richiedi indicazioni e la documentazione necessaria all'ufficio tecnico Nova-Ferr ufftecnico@novaferr.com
- UK** It is possible to obtain the CE certification in cascading for the doors made with our NOVAGUIDE® system. Request information and documentation from the technical office Nova-Ferr ufftecnico@novaferr.com

CONTROTELAIO A TAGLIO TERMICO ARTIK®

ARTIK®

- ① **TERMICO** perchè il profilo esterno in PVC A BASSA TRASMITTANZA non lascia passare il freddo e il caldo all'interno.
- ② **ROBUSTO** perchè la struttura portante è in ACCIAIO.
- ③ **SANO** perchè tenendo il freddo all'esterno ELIMINA la creazione di MUFFE tra muro e serramento.

MENO UMIDITÀ

PVC	★★	★★★★★	★★★★★	★★★★★

LA TECNOLOGIA AL SERVIZIO DEL RISPARMIO ENERGETICO

- 4** **COMPLETO** perchè dotato di ACCESSORI adatti ad ogni tipo di posa.

- 5** **RAPIDO** nel montaggio, senza saldature, grazie alle COMPONENTI AD INCASTRO.

- 6** **UNIVERSALE** perchè compatibile con tutte le tipologie di serramento in commercio, ALLUMINIO, LEGNO, PVC.

Fornito in comodo KIT con componenti già tagliati e pre-assemblati oppure in barre da tagliare, Il vantaggio di Artik risiede nella sua versatilità e semplicità di montaggio ed installazione. Un completo MANUALE DI POSA scaricabile dal sito www.novaferr.com ed i VIDEO TUTORIAL ONLINE sul canale **YouTube Novaferr**, vi supporteranno durante la posa, descrivendo le varie tipologie di utilizzo.

Per maggiori informazioni tecniche o commerciali scrivi a: info@novaferr.com

BLOCCA TAPPARELLA AUTOMATICO GENIOBLOCK

Un sistema **automatico e sempre inserito** per la sicurezza della tua abitazione. Il meccanismo scatta solo se la tapparella viene sollevata dall'esterno e lascia traccia del tentativo di effrazione. Si installa in pochi minuti e non occorre manutenzione.

Guarda il video di GENIOBLOCK sul canale youtube di NovaFerr.

www.youtube.com/user/novaferr

Blocca tapparella automatico inox GENIOBLOCK

Art. 700

-  *Stainless steel automatic rolling shutter closer*
-  *Fermavolet roulant automatique en acier inox*
-  *Dispositivo en acero inox para cerrar las persianas*
-  *Sicherheitsschloss für Rollläden aus Edelstahl*

Materiale: Acciaio inox

Art.	Peso(g)	Conf.
700	150	20cop.

Caratteristiche GENIOBLOCK

GENIOBLOCK viene consegnato in confezione BLISTER all'interno di un BOX di cartone studiato apposta per essere collocato su scaffalature a rastrelliera o su banconi per un agevole prelievo per il cliente finale.

Se il dispositivo GENIOBLOCK interviene, rimane bloccato segnalando il tentativo di scasso.

Per sbloccare il dispositivo agire sulla leva tirandola verso di sé

All'interno del BLISTER ci sono 2 dispositivi GENIOBLOCK uno da posizionare sul lato sx della tapparella, uno sul lato dx della tapparella.

Installazione su tapparella

Tramite dima di foratura predisporre i fori sulla doga della tapparella tramite le viti in dotazione fissare il dispositivo

Installazione su montante

Presentare il dispositivo sul montante laterale, fare i fori ed ancorare lo stesso al montante

SCHEMA STAFFE PER FACCIATE CONTINUE

 Layout of brackets for curtain walls

 Esquema soportes para fachadas continuas

 Schema des brides pour facades continues

 Positionierung der Befestigungsplatten in Glas-Vorhangfassaden

Ancoraggio delle staffe per le facciate continue

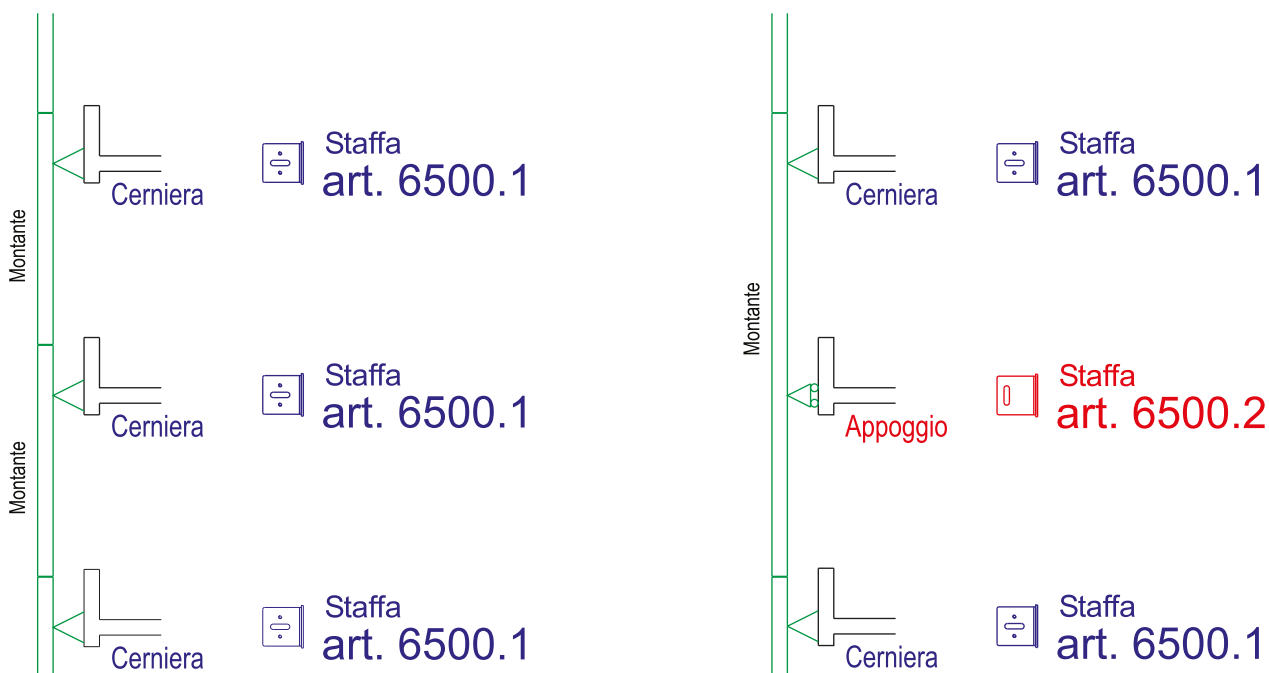

Principi generali di supporto e ancoraggio:

Principio A:
Montante bloccato all'estremità inferiore

Principio B:
Montante bloccato all'estremità superiore

Principio di GERBER (travi continue su n° _ appoggi):

Principio C:
montante altezza di 1 piano

Principio D:
montante altezza di 2 piani

(*) Altezza parapetto muratura

(**) Collegamento del montante, ottimale a H/5, giusto sotto la traversa del parapetto, (se esistente) tenendo in considerazione le condizioni per il successivo tamponamento.

Nella realtà, ci si trova con la soletta pulita dove posizionare le staffe, quindi il collegamento tra i 2 montanti avviene in questo punto, anche per tenerlo il più possibile nascosto dall'interno.

Condizioni generali di vendita

PREZZI - I prezzi presenti nel listino, salvo diversa indicazione, sono espressi in € e si riferiscono, se non specificato, al singolo pezzo o al metro lineare.

PAGAMENTO - Il committente è tenuto a pagare secondo le date pattuite. Nel caso di ritardi, per qualsiasi ragione, saranno addebitati gli interessi di mora pari ad un tasso uguale al tasso di sconto ufficiale in vigore durante il periodo d'insolvenza. La società si riserva in qualsiasi momento il diritto di sospendere le forniture qualora ravvisasse nel committente insolvenze o esposizione troppo elevata. Eventuali contestazioni per difetti della merce fornita o per ritardi di fornitura, non possono costituire in nessun caso motivo di sospensione dei pagamenti.

CONSEGNA - I termini di consegna sono da ritenersi indicativi e sono espressi in giorni lavorativi. La consegna è effettuata al massimo entro 30gg dalla ricezione dell'ordine. Eventuali ritardi non potranno giustificare l'annullamento dell'ordine né richieste di risarcimento per eventuali danni diretti o indiretti.

TRASPORTO - La merce viaggia sempre a rischio e pericolo del committente anche quando è stato concordato il franco destino. Se all'arrivo la merce o l'imballaggio ha subito danni, il Cliente è tenuto a contestarli allo Spedizioniere. Se il danno è dovuto a nostra negligenza, le contestazioni saranno accettate solo se riportate sul documento di trasporto ed in tutte le copie.

RESI - Non si accettano resi se non preventivamente autorizzati dalla nostra Società. Al ricevimento del reso sarà emessa nota di accredito, previo controllo della merce e del suo imballo, dedotta di eventuali costi per il ripristino della merce, di trasporto o di rifacimento imballi.

CARATTERISTICHE TECNICHE - Tutte le caratteristiche tecniche riferite ai nostri prodotti presenti nel catalogo, sono da considerarsi indicative. Ci riserviamo in qualsiasi momento di approvare variazioni sia tecniche che estetiche, senza nessun preavviso.

CONTROVERSIE - Per qualsiasi controversia il foro competente è quello di Torino.

PRICES - The prices in the pricelist are in €, unless otherwise indicated. Prices apply to each single piece or per linear meter, if not specified otherwise.

PAYMENT - Customer payment is required according to the agreed-upon dates. In case of any delay for any reason, default interest will be charged equal to the official discount rate in effect during the contested period. Our company reserves the right at any time to suspend the supply of materials in cases where the buyer shows excessive signs of exposure and insolvency. Possible complaints due to defects or delays of the supplied merchandise constitute no reason for suspension of payment.

DELIVERY - Terms of delivery are only indicative and are expressed in work-days. Utmost effort is made to deliver within 30 days of receipt of the order. Possible delays will not justify cancelling nor modification of the terms and conditions of the order, as a result of direct or indirect damages.

TRANSPORTATION - The merchandise travels at buyer's own risk even when D.D.P. delivery has been agreed upon. If upon arrival the merchandise or packaging is damaged, the customer must notify the shipping agent. If damage is due to our negligence, notification of the charges will be accepted only if they are reported on the original and all copies of the shipping document.

RETURNED MERCHANDISE - Merchandise can be returned only if it has been previously agreed upon with our company. Upon receipt of returned merchandise and after inspection of the goods and packaging, a credit note will be issued. A deduction for possible costs for any necessary maintenance/repair/overhaul, repackaging, and shipping will be applied.

TECHNICAL CHARACTERISTICS - All the technical characteristics referred to the products in our catalogue are indicative. We reserve the right at any moment to make any variations, technical or in appearance, without prior notice.

DISPUTES - For any claims, the laws of the court of Turin, Italy will apply.

PRIX - Les prix Indiqués en la Isite de prix sont en€, sauf indication differente et ils se réfèrent à une piécè ou mètre linéaire.

PAIEMENT - Le client s'engage à payer aux échéances concordées. En cas de retard, pour n'importe quelle raison, il y aura à payer les intérêts moratoires dans la même mesure du taux d'escompte officiel en vigueur pendant la période d'insolvabilité. La société se réserve en tout moment le droit de suspendre les fournitures en cas d'insolvabilité du client ou en cas d'exposition financière trop élevée. D'éventuelles réclamations pour défauts de marchandise fournie ou pour des retards de livraison ne peuvent en aucun cas être motif de suspension de paiements.

LIVRAISON - Les termes de livraison sont indicatifs et sont indiqués en jours ouvrables. La livraison est effectuée dans un maximum de 30 jours de la reception de la commande. D'éventuels retards nejustifieront pas l'annulation de la commande ni demandes de remboursement pour d'éventuels dommages directs ou indirects.

TRANSPORT - La marchandise voyage aux risques et périls du destinataire même en cas de vente DDP. Si la marchandise ou l'emballage présentent des dommages, le client à reception est tenu à le signaler au courrier. Si le dommage est dû à notre négligence, les contestations seront acceptées uniquement si mentionnées sur le document de transport et sur toutes les copies.

RETOUR DE MARCHANDISE - La société n'accepte aucun retour sans accord préalable. A réception de la marchandise retournée la société émettra une note de crédit après contrôle des marchandises et emballages, avec déduction éventuelle des coûts pour le recouvrement des marchandises, transport ou réemballage.

CARACTERISTIQUES TECHNIQUES Toutes les caractéristiques techniques relatives à nos produits en catalogue doivent être considérées indicatives. La société se réserve le droit d'apporter, en tout moment, des modifications techniques et esthétiques sans aucun préavis.

LITIGES - En cas de litiges, le tribunal de Turin IT, est le seul compétent.

Condizioni generali di vendita

PRECIOS - Los precios en la lista de precios son en € y se refieren por pieza o por metro lineal, a menos que no haya sido previamente especificado de otra manera.

PAGO - El cliente se compromete a pagar en las fechas establecidas. En el caso de demora, por cualquier motivo, le serán adeudados cargos de mora con intereses iguales a la tasa del descuento oficial en vigor durante el período de insolvencia. La sociedad se reserva en cualquier momento el derecho de suspender el envío de la orden si esta descubriera la existencia de insolvencias o exposición demasiado elevadas por parte del cliente. Eventuales reclamos debidos a defectos de la mercancía o retrasos en el envío de la misma, no constituyen en ningún caso motivo para suspender los pagos.

ENTREGA - Los términos de entrega son solamente indicativos y son expresados en días laborales. La entrega se efectúa como máximo dentro de 30 días de recibida la orden. Eventuales demoras no pueden justificar la anulación de la orden ni la demanda de indemnización por eventuales danos directos o indirectos.

TRANSPORTE - La mercancía viaja siempre por riesgo y cuenta del cliente aún cuando se haya acordado el flete a destino (D.D.P.). Si a la llegada, la mercancía o el embalaje han sufrido daños, el cliente deberá presentar su reclamo al expedidor. Si el daño es debido a nuestra negligencia, los reclamos serán aceptados solamente si éstos están especificados en el original y en todas las copias del documento de transporte.

DEVOLUCIONES - No se aceptan devoluciones sin la previa autorización de nuestra Sociedad. Al recibo del material devuelto se emitirá una nota de abono sólo después que la mercancía y el embalaje sean controlados. En caso necesario si hubieran ulteriores costos de mantenimiento, transporte o de nuevo embalaje, éstos serán restados de la nota de abono.

CARACTERISTICAS TECNICAS - Todas las características técnicas que se refieren a nuestros productos presentes en este catálogo son de forma indicativa. Nos reservamos el derecho en cualquier momento de hacer variaciones sean éstas técnicas o estéticas, sin previo aviso.

CONTROVERSAS - Para cualquier controversia, se aplicarán las leyes de la corte de Turín, Italia.
